Re: Plan of Operations, Brush Wellman's
Beryllium Mining Operations, Juab
County, Utah (your file 3800 U-056 ZP)

Dear Mr. Hirschi:

Thank you for your letter of May 19, 1981. Enclosed herewith is a copy of our letter and attachments of even date addressed to Mr. James W. Smith, Jr., Coordinator of Mined Land Development, Utah State Division of Oil, Gas and Mining, which contained information requested by you in your May 19 letter.

Concerning your request for a sequence of mining operations and sites to be utilized each year during the next five years, please refer to the graph and map, Plate I, attached to our letter to Mr. Smith. Brush Wellman hereby requests pursuant to 43 C.F.R. §3809.5 that you maintain said map and graph as unavailable for public examination, as it contains confidential or privileged commercial or financial information.

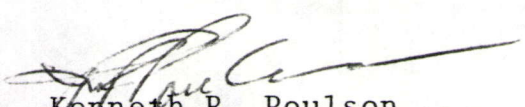

Concerning the surety arrangement, as our previous submittals and the present attachment indicate, the Utah State Division of State Lands has not yet determined an amount of the surety. See in particular the copy of the April 7, 1981 letter from Mr. Smith to myself which we submitted to the Richfield District Office of the Bureau of Land Management as part of our Subpart 3809 filing on April 23, 1981. We intend to continue to work with the Utah State Division of Oil, Gas and Mining concerning the surety requirement until a mutually acceptable amount and form of surety can be arranged for and approved by the Board of Oil, Gas and Mining. We will of course keep you fully and timely informed of any progress in that direction.

Mr. E. Birell Hirschi
